Lawinger Consulting, Inc. (LCI)
Computer Consulting Services

Reliable Computer Consulting You Can Count On

Lawinger Consulting, Inc. (LCI) is a team of computer consultants based in the Minneapolis, St. Paul and Greater Twin Cities areas that is committed to assisting businesses grow and refine their IT operations and resolve any technical challenges. LCI's customers range from worldwide Fortune 100 and 500 companies looking for global team partnerships, to small and medium sized local businesses looking for inexpensive low-maintenance solutions.

Our talented team has extensive experience in NT, Unix, Linux and Mainframe platforms; and consists of both advanced hardware configuration experts and certified software solution teams. By analyzing your applications and infrastructure, we find the most effective ways to harness your assets and keep your mission-critical applications running.

Whether you're looking for system administration, hardware and software installation, integration solutions, data migration, or web site architecture or management, our managerial techniques and teaming protocols allow us to offer complete support while reducing your IT expenses.

LCI gives you reliability you can count on day after day.

Testimonials

"We were highly impressed with LCI's knowledge, professionalism, and their ability to educate our highly skilled staff."

David Johnson
Johnson Logistics, Inc.

"When a problem arises I call LCI and rest assured the problem will be fixed."

Laura Smith
Project Systems Manager
Minnesota Resource Center
